

the cloakroom

EDITION III

the big book for the little room

welcome

to the cloakroom range from saneux

When it comes to the smallest room in the house, **saneux** offers stylish, space saving ideas to enhance even the most confined cloakroom area, shower room or guest room en-suite.

Basins come with the option of semi-recessed, wall hung or with a pedestal. Most wall mounted basins have underbasin cupboards to replace traditional washbasin pedestals, giving useful shelving and hiding pipework. A variety of corner models are also available which help achieve the feeling of space. Clean uncluttered lines and chic modern design ensure there is however no compromise in style.

Give your cloakroom the treatment it deserves ~ let **saneux** show you how to be creative and make the best use of space, with our collection of distinctive contemporary sanitaryware.

contents

Most of us want a bigger cloakroom than we have. But like the cucumber sandwiches and the wet walks on Saturday it's all part of the charm. England has tiny bathrooms – like it or not . . . you live here!

With 'the cloakroom' range from **saneux** we can help you make your little room or bathroom feel spacious.

cute huh?

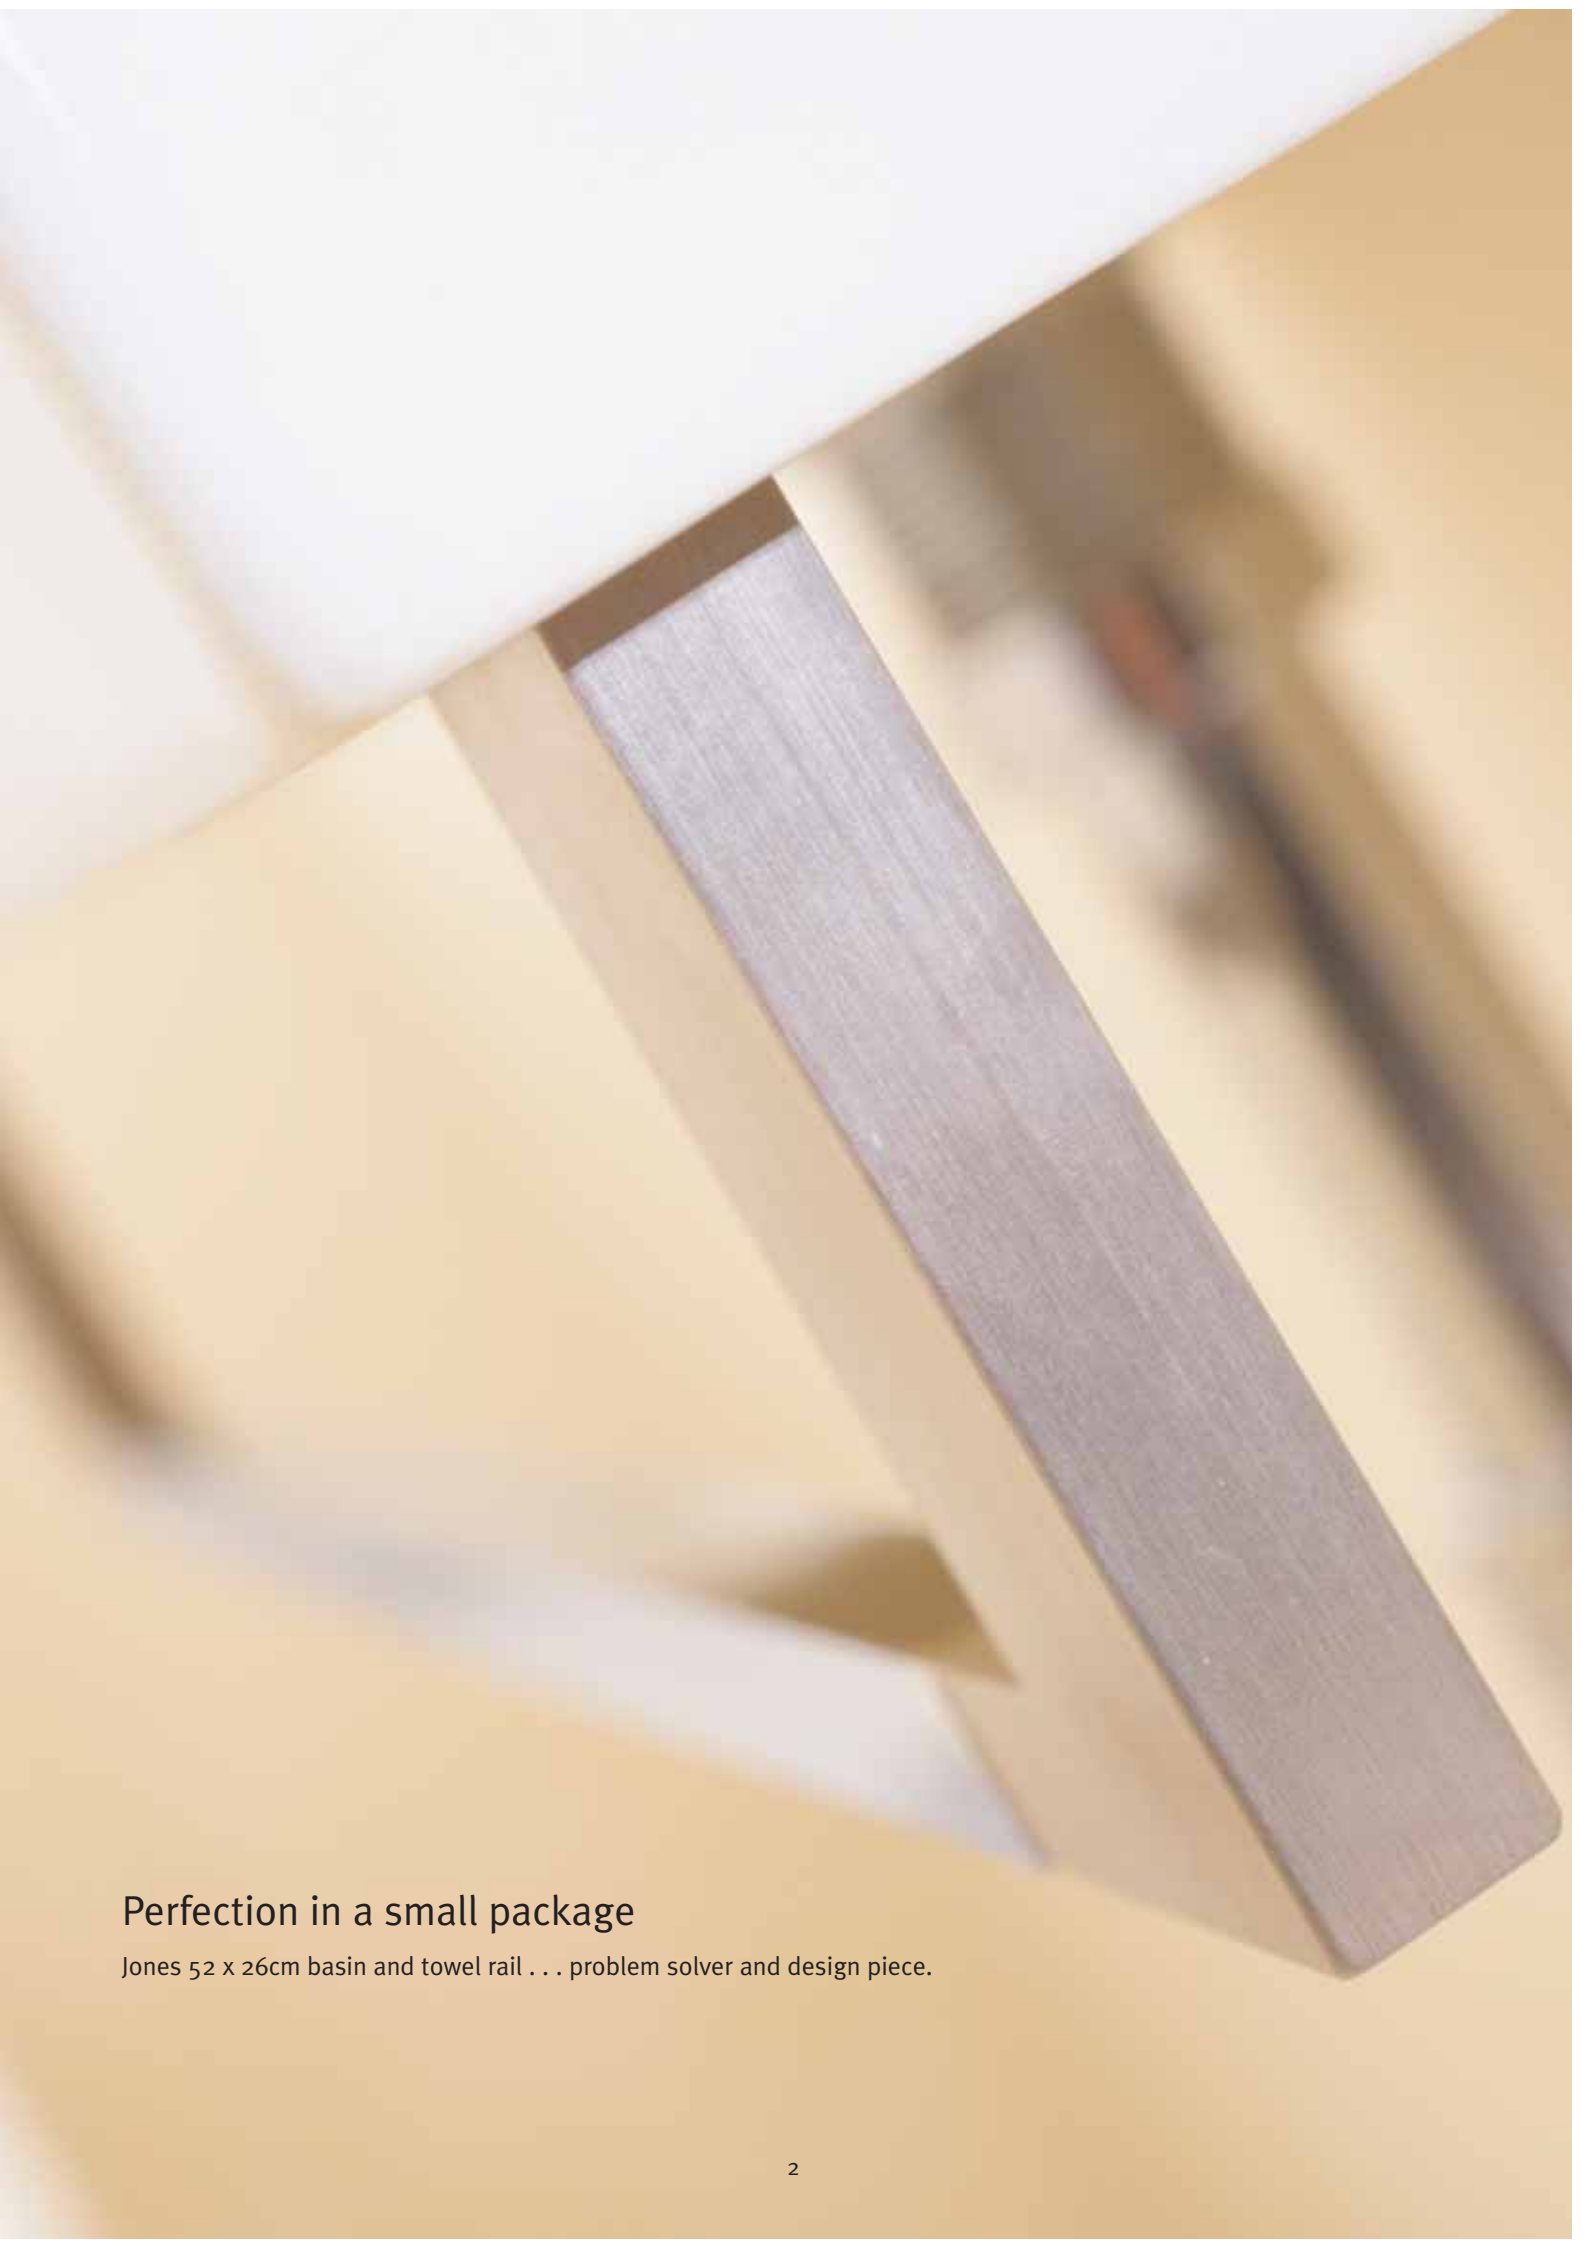

The Panoramic Space back to wall pan is just a minuscule 48cm projection.

positively widgy . . .

The Uni semi-recessed washbasins can fit in hand luggage only.

‘...BIG ideas for small spaces’

Perfection in a small package

Jones 52 x 26cm basin and towel rail . . . problem solver and design piece.

practical planning

When planning your cloakroom or small bathroom, there are key considerations to assess.

Measure the dimensions of your washroom accurately. Do not forget to include the thickness of tiles especially natural stone tiles. (These can sometimes be up to 20mm including adhesive.)

Scale accurately on a piece of graph paper or similar. Mark on the plan where existing soil pipe, basin waste & plumbing / heating pipework is to give an accurate idea of the plumbing needed.

Draw on the floor if necessary to be sure the basin you order is the correct size. Not too small, not too big.

Storage, who wants to see bogrolls? Hide the nasties and the pipework, the cabinets in the cloakroom range are inexpensive and robust providing an ample storage solution.

Shown here is Jones wall hung pan (6918) with 52x25cm basin (6986) and dark walnut cabinet (QU25-C) Tempus accessories.

Shown here is Quadro 30 x 30cm basin (QU30) with light oak cabinet (QU30CLO) and junior basin mixer (UJ352).

Shown here is Jones Close coupled WC (6917), Jones 52 x 25 cm basin (6986).

Shown here is Quadro corner basin (QU36) with towel rail (PA36) and Panoramic close coupled WC.

When it comes to the smallest room in the house, **saneux** offer stylish, space saving ideas to enhance even the most confined cloakroom area.

Shown here is YLO wall hung pan with Quadro 60cm basin and cabinet. 5th Avenue wall mounted basin mixer.

Perfection in a small package

Uni 46 x 32cm very flexible, very functional.

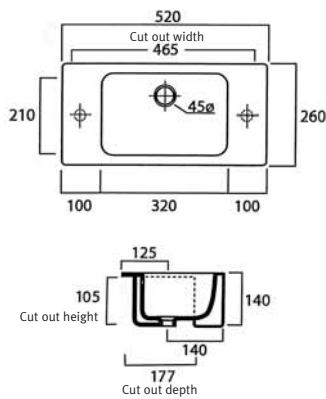

This washbasin will enhance any cloakroom furniture.

Shown with Junior basin mixer, available left, right or no taphole.

NEW OUT! For years we have accepted that semi-recessed basins had to look a bit nasty, dated and if you were having furniture “this is what you’ve gotta ‘ave”. This year we have put pen to paper to come up with a design of basins which were pleasing to look at, stylish and could use the cloakroom furniture format.

Austen

by Agua Maison®

Designed by us with you in mind.

Bold lines and geometrical beauty outline the pleasing look of Austen. Washbasins available with storage to suit the most discerning.

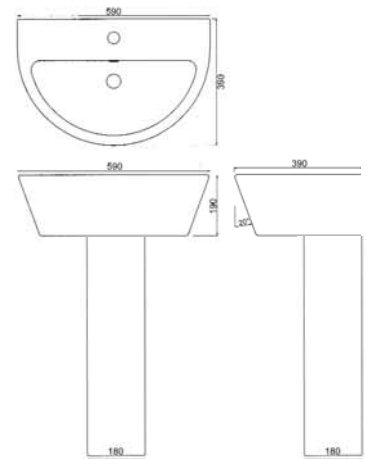

The close coupled W.C. pan is fully back to wall thereby hiding that UGLY, and quite simply GREY, spotty soil pipe that should be heard and not seen.

Perfectly sized for a small en-suite or shower room, the Austen basin with 59cm x 39cm dimensions is very well suited in any bathroom.
