DESCRIPTION

The COS collection was designed to create brassware that was both modern and classic to suit any style of bathroom.

This COS rigid riser rail in chrome was specifically created to be paired with our COS thermostatic 2 way bar valve. It has an adjustable handset holder bracket so you can move where you want the handset to sit, and the rail itself is also adjustable so you can change the height of where the shower head sits.

Pair it with a COS round shower head, COS handset, and shower hose.
